

Mississippi Emergency Support Function #13 – Public Safety and Security Annex

MS ESF #13 Coordinator:

Mississippi Department of Public Safety

Mississippi State Tax Commission, ABC
Division

MS Primary Agencies:

Mississippi Department of Public Safety
Mississippi Department of Transportation
Mississippi Military Department
Mississippi Department of Wildlife,
Fisheries & Parks

Mississippi Emergency Management
Agency

Mississippi Forestry Commission
Mississippi Department of Finance and
Administration/Capitol Police

MS Support Agencies:

Mississippi Attorney General's Office
Mississippi Department of Marine
Resources
Mississippi State Auditor's Office
Mississippi Department of Corrections
Mississippi Insurance Department
Mississippi Gaming Commission
Mississippi Military Department/National
Guard

Federal ESF Coordinator:

Department of Homeland Security
Department of Justice

Federal Primary Agencies:

Department of Homeland Security
Department of Justice

Introduction

Purpose

Emergency Support Function (ESF) #13, Public Safety and Security, integrates Mississippi public safety and security capabilities and resources to support the full range of incident management activities associated with potential or actual major incidents. The primary purpose of this ESF is to establish procedures for the command, control, and coordination of all State law enforcement personnel and equipment to support local law enforcement agencies.

Scope

The Director of the MS Emergency Management Agency (MEMA), the Commissioner of the Department of Public Safety (MDPS), and the Adjutant General (TAG) will evaluate the overall magnitude of each incident. If all other available resources are insufficient, the recommendation to activate the National Guard is presented to the Governor for execution.

ESF #13 capabilities support incident management requirements including force and critical infrastructure protection, security planning and technical assistance, technology support, and public safety in both pre-incident and post-incident situations. ESF #13 generally is activated in situations requiring extensive assistance to provide public safety and security and where county and municipal government resources are overwhelmed or are inadequate, or in pre-incident or post-incident situations that require protective solutions or capabilities unique to the State government.

Policies

- All requests for federal law enforcement augmentation of state/local law assets should come from the SEOC.
- Federal operations to support and protect federal facilities/assets within the State of Mississippi must be coordinated with MDPS prior to deployment.
- Following the impact of these events, local law enforcement agencies may be unable to cope with the magnitude of problems, which may arise.
- State agencies, by virtue of their law enforcement powers, manpower, equipment and supplemental resources, have the capability of assisting local government to provide necessary law enforcement.
- State, Local, Tribal, private-sector, and specific State authorities have primary responsibility for public safety and security, and typically are the first line of response and support in these functional areas.
- In most incident situations, local jurisdictions have primary authority and responsibility for law enforcement activities, utilizing the Incident Command System (ICS) on scene. In larger-scale incidents, additional resources should first be obtained through the activation of mutual aid agreements with neighboring localities and then State authorities, with incident operations managed through a Unified Command (UC) structure. In this context, Mississippi's resources would include members of the Mississippi National Guard that the Governor calls into State service in a law enforcement, security, and/or public safety capacity.
- Through ESF #13, Mississippi resources supplement county, municipal, or other Federal agency resources when requested or required, as appropriate, and are integrated into the incident command structure using National Incident Management System (NIMS) principles and protocols.
- ESF #13 primary agencies facilitate coordination among supporting agencies to ensure that communication and coordination process are consistent with stated incident management missions and objectives.
- When activated, ESF #13 coordinates the implementation of Mississippi authorities that are appropriate for the situation and may provide protection and security resources, planning assistance, technology support, and other technical assistance to support incident operations consistent with Mississippi agency authorities and resource availability.
- In the event that State and Local police forces are unable to adequately respond to a civil disturbance or other serious law enforcement emergency, the State legislature (or the Governor if the legislature cannot be convened) may request, through the Attorney General, Federal military assistance under 10 U.S.C. Chapter 15. The President may also use the military in a state to enforce Federal law or to protect constitutional rights. Pursuant to 10 U.S.C. 331-334, the President will ultimately determine whether to use the Armed Forces to respond to a law enforcement emergency.
- This ESF does not usurp or override the policies or mutual aid agreements of any county or municipal jurisdiction or government, state government, or Federal agency. Law enforcement

activities and criminal investigations are conducted in conformance with existing codes and statutes.

- Situations determined to be imminently serious may be handled directly by military commanders according to military regulation.
- Law enforcement officials will carry out functions that they are trained to do, some of which may not apply on a regular, everyday basis.
- If sufficiently trained law enforcement is not available from local government, public or private sources within the community will be sought. These sources include auxiliary and reserve elements, MS State Guard, retired and/or veterans' groups, industrial security personnel, private security firms, or other qualified personnel as available.
- This ESF provides the conduit for utilizing and incorporating the extensive network of public safety and security coordination established for steady-state prevention efforts through a variety of interagency plans, such as the Mississippi Infrastructure Protection Plan, Mississippi Maritime Security Plan, and the Vessel and Facility Security Plans.

Concept of Operations

General

- The Sheriff or Police Chief is responsible for law enforcement activities within their jurisdiction. Only when all local resources are exhausted will State law enforcement personnel and equipment be requested. At that time, a member of the MS Department of Public Safety (MDPS) will be assigned to coordinate State activities with the local law enforcement officer in charge.
- Upon this determination by local authorities of a need for additional law enforcement, a request for assistance will be made to the Emergency Coordinating Officer (ECO) of MDPS stationed at the State Emergency Operations Center (SEOC), from which ESF #13 will coordinate law enforcement requests. The SEOC will be activated at the appropriate level (I-IV) to support law enforcement operations. (See Basic Plan.)
- When ESF #13 is activated, ESF #5 and other appropriate support ESFs will be activated to support the event.
- If additional assistance is needed from other state agencies with law enforcement manpower and equipment, the MDPS ECO will prioritize and coordinate these additional assignments with other ESF #13 support agencies.
- All state level law enforcement units will remain under the control of their department's command structure in coordination with ESF #13.

Alert, Notification, and Warning

- When local law enforcement initially responds to an incident and requires immediate State supplemental law enforcement assistance, sheriffs and police chiefs may call directly on the regional commander of any agency from which they need assistance. Those state agencies will notify the nearest MDPS office of their involvement.

- The SEOC, in conjunction with MDPS, will coordinate the alert and notification procedures for key law enforcement and other officials supporting ESF #13
- The SEOC will keep all responsible agencies, including any Unified Command, informed of all conditions, which would cause them to assume a readiness posture in preparation for SEOC activation, possible deployment to a forward area of operation, or other activity.
- If it appears that State law enforcement resources will be required beyond those in the affected region, MDPS may request activation of the SEOC. Depending on the size and nature of the incident, those ESF #13 agency ECOs necessary for response will be notified by MEMA officials to report to the SEOC.
- ESF #13 ECOs will notify their regional offices of the need for additional resources, and prepare for response. MEMA, in consultation with MDPS, will determine which other ESFs are needed based on the incident, and ensure similar notifications and response to the SEOC. All appropriate state agency heads will be advised and consulted.

Response and Evacuation

- An evacuation may overwhelm the resources of local and state agencies such that additional support for evacuation and/or traffic control may be requested from the MSNG.
- Other response support may be provided in accordance with capabilities listed below in Organization Assignment of Responsibilities.
- Because of the statewide dispersal of MDPS offices, contact with affected sheriffs and police chiefs can be made quickly to determine their law enforcement needs for a particular incident. Once the appropriate district receives the information, it is passed on to the SEOC and ESF #13 support agencies.
- ESF #13 agency ECOs at the SEOC coordinate with MDPS for deployment of their resources. All state law enforcement resources typically respond to the county(s) in numbers and types of equipment based on initial assessments made with sheriff(s), police chiefs, and state agency operations requiring security.

Organization

State Emergency Operations Center

The State ESF #13 will manage and coordinate law enforcement requests from the State Emergency Operations Center (SEOC) when activated. The SEOC is located at 1 MEMA Drive, Pearl, MS 39288. State ESF #13 operations will be accomplished by mobilizing State law enforcement resources in support of the affected local jurisdiction (upon request by local government).

Field Units

- MHP SWAT Team
- Crime Scene Unit
- MDPS Air Operations
- MDPS DRT Team

- ESF #13 will provide personnel or liaison to the JFO to work closely with their federal counterparts.
- Law enforcement field personnel will be supported by their parent organization and life support may be provided by one or all of the following options:
 1. Base camp
 2. DPS mobile kitchen trailer
 3. Local contracts
 4. MOU for housing on Kessler Air Force Base (pending)

Mutual Aid Agreements

- Statewide Mutual Aid Compact (SMAC)
 - Local law enforcement will be available for other participating local governments through the SMAC.
- Emergency Management Assistance Compact (EMAC)
 - Emergency law enforcement services from party states are available for other party states in need of assistance. It will be implemented in the event of a major disaster or any emergency that overwhelms the identified law enforcement resources of this State.
 - Mutual assistance in this compact may include use of the states' National Guard forces, either in accordance with the National Guard Mutual Assistance Compact or by states' agreements.
- MEMA coordinates the continued development and implementation procedures of EMAC with adjacent states for augmentation of resources.

Administrative and Logistical Support

- All participating agencies will receive administrative support from their parent organizations; MEMA will provide additional assistance as needed.
- All participating agencies are expected to attend and support briefings and other coordination meetings, whether at the SEOC or elsewhere.
- Operational logs, messages, requests, and other appropriate documentation will be maintained for future reference and historical perspective.
- Each agency will maintain its own maps, displays, status reports, and other information not included in the ESF #5 operation.
- Each ESF #13 agency that has an automated financial management system will utilize that system to capture the incurred costs of all available, acquired, and contracted resources used during the support activities related to emergency or major disaster operations. Those agencies not having access to an automated system will utilize their existing system to capture all related costs for reporting and potential reimbursement.

- All ESF #13 agencies will ensure that their financial management system, automated or otherwise, used to capture their incurred costs during an emergency, major disaster, or exercise is in compliance with applicable agency, State, and Federal guidelines, rules, standards, and laws. This understanding is based on the knowledge that any reimbursement of incurred costs is subject to audit.
- All participating agencies are responsible for locating and setting up their own operational work areas and for maintaining the logistical support for them.

Direction, Control and Coordination

- MDPS is the lead agency responsible for overall command and coordination of ESF #13, and the deployment of State law enforcement assets to affected Local agencies and for maintaining liaison with affected sheriff(s) and police chiefs.
- MDPS is divided into districts from which local operations are conducted in coordination with the State Headquarters in Jackson.
- During incidents involving primarily participants within the law enforcement community, coordination may be limited to the MDPS State Headquarters through coordination with the SEOC.
- MDPS ECO will normally coordinate from the SEOC, but a catastrophic situation may require the establishment of an additional forward coordination element near the impacted area.

Each participating agency will coordinate its support with ESF #13. This coordination is essential whether or not the SERT or FAsT may be operating from the SEOC, the forward, SHSC, the SESC, or MEMA's Mobile Operations Center (MOBOPS).

Actions

Preparedness

- The Mississippi Department of Public Safety in conjunction with support agencies:
 - Ensures that ESF SOPs are developed and maintained that conform to this plan and provide greater detail on the ESF operations.
 - Trains and exercises MS-ESF #13 personnel.
 - Designates an ECO and alternate ECO, who will go to the SEOC, JFO, or on the State Emergency Response Team (SERT), Rapid Needs Assessment Team (RNA), or other areas of operation.
- All agencies with MS-ESF #13 responsibilities:
 - Support development and maintenance of SOPs to enable them to perform appropriate levels of mitigation, preparedness, response, and recovery related to public safety and security.
 - Participate in training and exercises when scheduled.

Pre-Incident

- This ESF will provide expertise and coordination for security planning efforts and conducting technical assessments (e.g., vulnerability assessments, risk analyses surveillance sensor architecture, etc.).
- This ESF will identify the need for ESF #13 support and analyze potential factors that affect resources and actions needed, such as mapping, modeling, and forecasting for crowd size, impact of weather, and other conditions on security, etc.
- Provide an ECO (and alternate if 24 hour coverage is necessary) and MS-ESF #13 liaison to the SEOC.

Incident

- Upon activation of ESF #13, ECO will:
 - Communicate this information to all other ESF #13 members.
 - Ensure adequate communications are established and maintained.
 - Obtain an initial situation and damage assessment through established intelligence procedures.
 - Coordinate the distribution of assets as needed.
 - Maintain a complete log of actions taken, resource orders, records, and reports.
 - Coordinate the efforts through a liaison to ESF #5.
 - Assist in gathering and providing information to ESF #5 for establishing priorities
 - Assist gathering and providing information to ESF #15 for press releases.
- **Access Control:** Providing security forces to support state and local efforts (or to secure sites under Federal jurisdiction) to control access to the incident site and critical facilities.
- **Site Security:** Providing security forces and establishing protective measures around the incident site, critical infrastructure, and/or critical facilities.
- **Traffic and Crowd Control:** Providing emergency protective services to address public safety and security requirements during Incidents of State Significance.
- **Force Protection:** Providing for the protection of emergency responders and other workers operating in a high-threat environment.
- **Security Surveillance:** Conducting surveillance to assist in public safety and security efforts, and providing appropriate technology support, as required.
- **Specialized Security Resources:** Providing or coordinating specialized security assets such as traffic, barriers; chemical, biological, radiological, nuclear, and high-yield explosives detection devices; canine units; law enforcement personal protective gear; etc.

Recovery

- The MDPS ECO will keep continuous communications with SEOC officials throughout the event, so as to ensure the allocation of needed resources from other agencies with capabilities to assist in the recovery process.
- MDPS and the MS Military Department (MMD) will be responsible for manning Traffic Control Points (TCPs) for re-entry into previously evacuated areas.
- Law Enforcement and security assistance from ESF #13 may continue to be required by affected sheriff(s) and police chiefs into the recovery phase of an incident. Normally, by this time the most assignments have been assumed by local law enforcement, or are no longer required. The same requirement may continue to exist for State operations remaining active and requiring security, but typically are similar to local law enforcement needs, as described. MDPS will continue to conduct assessments of all assignment requirements with the requesting agencies and will respond accordingly. ESF#13 will coordinate with local law enforcement to establish traffic control points into the affected area.
- Prepare an after-action report. The after-action report identifies key problems, indicates how they are to be/were solved, and makes recommendations for improving ESF response operations. All ESF #13 organizations assist in preparation of the after-action report.

Responsibilities

MS Department of Public Safety—ESF Coordinator

- Coordinate statewide emergency traffic control with the Mississippi Department of Transportation (MDOT) to implement evacuation traffic control measures.
- Conduct and direct all state emergency police services.
- Assist local county sheriff and municipal police in law enforcement activities.
- Notify and coordinate the detouring of traffic away from sites that have experienced severe infrastructure damage.
- Provide communication support.
- Support the emergency transportation of medical personnel and supplies.
- Support, coordinate, or provide fixed and mobile radiological monitoring.
- Secure perimeter around disaster area(s).
- Issue temporary passes to authorize sworn as well as private support personnel to enter restricted areas.
- Provide security at facilities supporting forward area of operations.
- Support re-entry control points.

MS Military Department (MMD)

- Assist with emergency communications.

MS Department of Transportation

- Provide support for this activity as needed to assist the ESF.
- Provide enforcement personnel to assist the MHSP and local law enforcement officers.
- Staff State Point of Entry (POE) at weigh station facilities.
- Deploy personnel to erect barricades and signs as per prearranged plans or as requested by state or local officials.
- Ensure that adequate communications are established and maintained
- Support the resource pool by providing available resources as needed.

MS Department of Wildlife, Fisheries & Parks

- Provide support for this activity as needed to assist the ESF.
- Provide uniformed park rangers for law enforcement on state parks and facilities.
- Provide uniformed personnel and equipment to assist the MDPS in emergency assignments.
- Designate a primary and alternate ECO to report to the SEOC, the State Hurricane Support Center (SHSC), the State Earthquake Support Center (SESC), DFO, or on the State Emergency Response Team (SERT), Rapid Needs Assessment Team (RNA), or other areas of operation.
- Ensure that adequate communications are established and maintained.
- Support the resource pool by providing available resources as needed.

Support Agencies

Agency	Functions
Mississippi Emergency Management Agency	<ul style="list-style-type: none"> ▪ Receive, confirm, evaluate, and prioritize requests for assistance from local governments. ▪ Ensure that adequate communications are established and maintained ▪ Support the resource pool by providing available resources as needed. ▪ Coordinate the response and recovery efforts through a liaison to ESF #5 (Information and Planning). ▪ Assist in gathering and providing information to ESF #5 for establishing priorities and to ESF #14 (Public Information) for press releases.
Mississippi Attorney General's Office	<ul style="list-style-type: none"> ▪ Support the development of an SOP in conjunction with the primary and supporting agencies. ▪ Provide support for this activity as needed to assist the SEOC ▪ Investigate price gouging referrals. ▪ Investigate consumer fraud reports. ▪ Publish a telephone number that all price gouging and consumer fraud incidents can be reported to by the public or other state agencies.
Mississippi State Auditor's Office	<ul style="list-style-type: none"> ▪ Support the development of an SOP in conjunction with the primary and supporting agencies. ▪ Provide support for this activity as needed to assist the SEOC ▪ Provide investigation officers as additional law enforcement support. ▪ Designate a primary and alternate ECO to report to the SEOC, the State Hurricane Support Center (SHSC), the State Earthquake Support Center (SESC), DFO, or on the State Emergency Response Team (SERT), Rapid Needs Assessment Team (RNA), or other areas of operation ▪ Ensure that adequate communications are established and maintained ▪ Support the resource pool by providing available resources as

	<p>needed.</p> <ul style="list-style-type: none"> ▪ Coordinate the response and recovery efforts through a liaison to ESF #5 (Information and Planning.) ▪ Assist in gathering and providing information to ESF #5 for establishing priorities and to ESF #15 (External Affairs) for press releases.
<p>Mississippi Department of Corrections</p>	<ul style="list-style-type: none"> ▪ Support the development of an SOP in conjunction with the primary and supporting agencies. ▪ Provide support for this activity as needed to assist the SEOC. ▪ Support law enforcement efforts for affected populations. ▪ Support security for key facilities, evacuating prisoners. ▪ Coordinate the evacuation of prisoners, if prison facilities have been affected. ▪ Designate a primary and alternate ECO to report to the SEOC, the State Hurricane Support Center (SHSC), the State Earthquake Support Center (SESC), DFO, or on the State Emergency Response Team (SERT), Rapid Needs Assessment Team (RNA), or other areas of operation ▪ Ensure that adequate communications are established and maintained ▪ Support the resource pool by providing available resources as needed. ▪ Coordinate the response and recovery efforts through a liaison to ESF #5 (Information and Planning). ▪ Assist in gathering and providing information to ESF #5 for establishing priorities and to ESF #15 (External Affairs) for press releases.
<p>Mississippi Military Department</p>	<ul style="list-style-type: none"> ▪ Support the development of a SOP in conjunction with the primary and supporting agencies. ▪ Provide support for this activity as needed to assist the SEOC ▪ Provide additional communications equipment to enhance communication between agencies involved in law enforcement emergency services. ▪ Provide security for critical facilities and Staging Areas (SA).

	<ul style="list-style-type: none"> ▪ Provide personnel and equipment to support traffic and crowd control measures. ▪ Staff re-entry control points. ▪ Designate a primary and alternate ECO to report to the SEOC, the State Hurricane Support Center (SHSC), the State Earthquake Support Center (SESC), DFO, or on the State Emergency Response Team (SERT), Rapid Needs Assessment Team (RNA), or other areas of operation . ▪ Ensure that adequate communications are established and maintained. ▪ Support the resource pool by providing available resources as needed. ▪ Coordinate the response and recovery efforts through a liaison to ESF #5 (Information and Planning). ▪ Assist in gathering and providing information to ESF #5 for establishing priorities and to ESF #15 (External Affairs) for press releases.
Mississippi State Tax Commission	<ul style="list-style-type: none"> ▪ Support the development of a SOP in conjunction with the primary and supporting agencies. ▪ Provide support for this activity as needed to assist the SEOC. ▪ Provide enforcement personnel to assist the MDPS and local law enforcement officers. ▪ Designate a primary and alternate ECO to report to the SEOC, the State Hurricane Support Center (SHSC), the State Earthquake Support Center (SESC), DFO, or on the State Emergency Response Team (SERT), Rapid Needs Assessment Team (RNA), or other areas of operation. ▪ Ensure that adequate communications are established and maintained. ▪ Support the resource pool by providing available resources as needed. ▪ Coordinate the response and recovery efforts through a liaison to ESF #5 (Information and Planning). ▪ Assist in gathering and providing information to ESF #5 for establishing priorities and to ESF #15 (External Affairs) for press releases.
