The characteristics of a hazard –

- Magnitude
- Intensity
- Speed of onset
- Duration
- Impact on the community

These factors will determine the scope of evacuation –

- How many people
- Time available
- Time and distance of travel to areas of safety

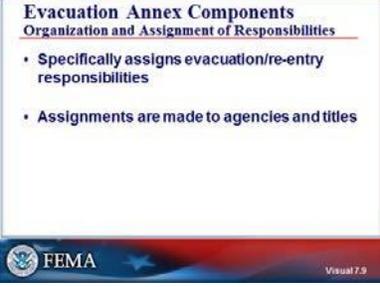

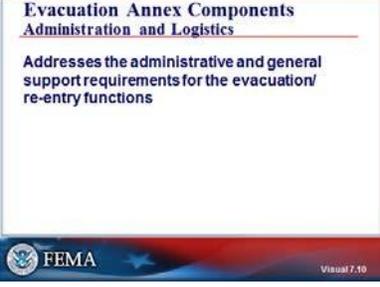

**Concept of Operations**

The Concept of Operations section includes:

- Scope of authority for ordering or recommending evacuation
- Provisions for evacuating people with disabilities and access and functional needs
- Means of maintaining communication to the public on evacuation issues
- Evacuation routes and options

**Concept of Operations**

- Transportation options available to people for evacuation/re-entry
- Assembly points
- Procedures to control flow of the evacuation/re-entry movements
- Security of and access to the evacuated area
