Unit 10: Conclusion

Time: 60 minutes

INTRODUCTION

Hurricane Readiness Planning is an ongoing effort. It requires continuous evaluation and planning to ensure that the community is always prepared, should a tropical cyclone or hurricane strike.

OBJECTIVES

At the conclusion of this unit, participants should be able to:

1. Identify any communications and coordination gaps in their jurisdictional plans;
2. Identify areas in the plan that require clarification;
3. List at least five takeaways from the course;
4. Identify resources and training opportunities; and
5. Evaluate the course.

METHODOLOGY

The instructor will summarize the course and answer any remaining questions, primarily focusing on jurisdictional plans. Following this, the instructor will debrief the course, including asking the participants to identify course takeaways; then the participants will complete a course evaluation.
Unit 10: Objectives

At the conclusion of this unit, participants should be able to:

- Identify any communications and coordination gaps in their jurisdictional plans;
- Identify areas in the plan that require clarification;
- List at least five takeaways from the course;
- Identify resources and training opportunities; and
- Evaluate the course.

Notes:

Unit 10: Conclusion

- Jurisdictional Plans
- Takeaways
- Resources
- Training Opportunities
- Course Review and Evaluation

Visual 10-2

Notes:
Jurisdictional Plan

- How current are your plans?
- When was the last time you conducted an exercise/drills and/or tabletop exercise?

Visual 10-3

Takeaways

- What are the important takeaways you have learned from this training?
- How will you implement those in your jurisdiction?

Visual 10-4
## Resources Opportunities for Hurricane Planning

### Resources for Hurricane Planning

- The Internet
- Mitigation
  - Mitigation Technical Assistance Programs
  - Hazard Mitigation Grant Program
  - Wind and Water Technical Assistance Program

**Visual 10-5**

## Training Opportunities

### Training Opportunities

- State and Local Emergency Management Offices
- FEMA, Emergency Management Institute (EMI)
  - Independent study courses
  - Resident courses at EMI
- Emergency Education Network (EENET)
- Other
  - Conferences
  - Higher education institutions
  - Web-based courses

**Visual 10-6**
Conclusion

Hurricane planning is an ongoing effort.
It requires continuous evaluation and planning
to ensure that the community is always prepared, should a hurricane strike.
