Comments:

---

---

---

Manufactured homes must be anchored to resist flotation, collapse, or lateral movement by being tied down in accordance with the Rules and Regulations for the State Uniform Standards Code for the Factory-Built Homes Law, Regulation MH-4, 25-41-1, MS Code, 1972, annotated April 20, 2001. **Dry stacked blocks are not allowed** as a foundation system within the SFHA. Unreinforced masonry piers are not effective in transferring lateral and uplift loads, FEMA P-85, Second Edition, November 2009.

Applicant acknowledgement: I understand that the issuance of this permit is contingent upon the above information being correct and that the plans and supporting data have been or shall be provided as required. I agree to comply with all applicable provisions of Ordinance# \_\_\_\_\_ and all other laws or ordinances affecting the proposed development.
