2021 EMERGENCY GUIDE
Over the course of her history, Mississippi has seen no shortage of natural disasters. In 2020 alone, our state experienced an active hurricane season, a historic flood, and record-breaking tornadoes. And 2021 is already proving to be an active year for natural disasters - we have already experienced severe winter weather, tornadoes, and flash flooding. As Governor, I am committed to overseeing our emergency response for any disaster that strikes Mississippi. I also urge you to protect yourself and your family and make sure you are prepared for any severe weather that comes our way. Please take advantage of this Mississippi Emergency Management Agency emergency preparedness guide and have necessary plans in place to ensure your safety and the safety of those around you. Be safe and God Bless!
The Mississippi Emergency Management Agency’s top priority is the life safety of Mississippians. Through this guide, we hope to better educate our citizens on preparing for the worst of natural disasters.

As Executive Director of MEMA, I hope this guide will prepare you for those dark and stormy days. We urge you to have a disaster supply kit and an action plan. When you're prepared, there is no need to panic. After a disaster, there could be days or even weeks without electricity. MEMA will be there for you, but first, you must help your families by having enough food and water to last you until assistance can arrive.

I’m proud to serve this great state. In 2020 we were hit with a pandemic, a record-breaking hurricane season, and a record-making tornado. Mississippians continue to show their resilience. Please use this guide to better prepare for what lies ahead.

Mississippi is no stranger to receiving a plethora of weather hazards, ranging from wintry weather, flooding, tropical storms, damaging wind gusts, large hail and of course tornadoes. Mississippi has two peak severe weather seasons, with the primary severe weather peak occurring in the spring, especially during the months of March and April, and the secondary season is during the late fall/early winter, particularly during the months of November and December. In between the aforementioned severe weather seasons, is when Mississippi could experience tropical weather as Hurricane Season occurs from June 1st through November 30th. The variety of weather hazards that Mississippi can experience throughout any given year, brings about the importance of ensuring you have multiple ways of receiving severe weather information and have a safety plan in place. Being prepared is key and we at the National Weather Service in Jackson, Mississippi will always be ready to fulfill our mission to protect life and property.
TABLE OF CONTENTS

1 PLAN AND PREPARE
8 HURRICANES
14 SEVERE STORMS
19 AFTER THE STORM
27 CONTACTS
36 EVACUATION MAP

Our Goal Is To Bring Calm After The Storm
PLAN
AND
PREPARE
IN A DISASTER, IT MAY BE AS LONG AS 72 HOURS BEFORE FIRST RESPONDERS ARE ABLE TO ASSIST YOU. YOU SHOULD BE PREPARED TO SURVIVE FOR A MINIMUM OF 3 DAYS WITH YOUR OWN DISASTER SUPPLY KIT

PACK A DISASTER KIT

Your kit should contain enough non-perishable food, water and supplies to last a minimum of 72 hours.

YOUR DISASTER SUPPLY KIT SHOULD ALSO INCLUDE:

- Flashlight
- First Aid Kit
- Extra Batteries
- Personal Hygiene Items
- Pet Food and Supplies
- Important Documents

ADDITIONAL REMINDER:
In the event power goes out, plan ahead and have a way to keep all necessary medication cold.
BE PREPARED & PLAN AHEAD

BUILD A DISASTER SUPPLY KIT

- 3 DAY SUPPLY OF NON-PERISHABLE FOOD
- 3 DAY SUPPLY OF BOTTLED WATER
- FLASHLIGHT
- PORTABLE RADIO
- EXTRA BATTERIES
- PHONE CHARGER
- FIRST AID KIT & MEDICATION
- EXTRA CASH
- PET FOOD & SUPPLIES
- FACE MASKS
- PERSONAL HYGIENE ITEMS
- IMPORTANT DOCUMENTS

DEVELOP A COMMUNICATION PLAN

1. ESTABLISH A WAY TO GET IN TOUCH WITH LOVED ONES
2. DESIGNATE AN EMERGENCY MEETING PLACE IN THE EVENT YOUR FAMILY BECOMES SEPARATED
3. APPOINT A FRIEND OR FAMILY MEMBER WHO IS NOT AFFECTED BY THE STORM TO BE A POINT OF CONTACT
4. HAVE A WAY TO RECEIVE THE LATEST WEATHER UPDATES
DISASTER PLANNING FOR THOSE WITH DISABILITIES

WHAT YOU MAY NEED:

- At least a week-long supply of prescription medication
- A complete list of all medications with dosage and allergies
- Descriptions of required accommodations, medical conditions and/or functional needs
- Copies of medical insurance and Medicare cards
- Extra wheelchair batteries and/or oxygen
- Contact information for doctors and family members who should be notified if you’re hurt
- Handheld electronic devices with headphones to decrease auditory distractions

DISASTER PLANNING FOR PETS

Include trash bags, cleaning products, a leash and pet food to your disaster kit.

Have your pet wear a collar with identification & rabies tags.

Have a crate available.

Make copies of important documents from your veterinarian.
PREPARE YOUR HOME FOR A NATURAL DISASTER

TRIM TREES
Cut back tree limbs and branches so that they don’t snap off in a windstorm and land on your home or a power line

CHECK WINDOWS AND DOORS
Ensure all windows and doors are sealed properly

INSPECT YOUR ROOF
Check your roof for damaged areas that may need to be repaired or replaced

CLEAN GUTTERS
Remove debris from gutters and downspouts so that rain can flow freely off of your roof

INSURANCE
- REVIEW YOUR INSURANCE POLICY TO MAKE SURE YOU HAVE ADEQUATE COVERAGE AND THAT YOU KNOW YOUR DEDUCTIBLE
- MAKE A PROPERTY INVENTORY LIST OF YOUR VALUABLES, FURNITURE, ELECTRONICS, ETC. AND TAKE PICTURES
- HAVE COPIES OF IMPORTANT DOCUMENTS LIKE INSURANCE POLICIES, MORTGAGES AND TITLES IN YOUR DISASTER SUPPLY KIT

A STANDARD HOMEOWNERS INSURANCE POLICY DOES NOT COVER FLOOD DAMAGE!
We encourage homeowners to purchase flood insurance separately

VISIT FLOODSMART.GOV FOR MORE INFORMATION
PREPARE FOR PROLONGED POWER OUTAGES

TIPS BEFORE THE STORM

TAKE TIME TO FULLY CHARGE YOUR CELL PHONE
A portable phone charger is a great resource to have when the power goes out. If you have one, make sure it is fully charged as well.

HAVE BATTERIES AND FLASHLIGHTS ON HAND
Provide a flashlight to every member of your household

HAVE A PLAN FOR HOW YOU WILL USE MEDICAL DEVICES POWERED BY ELECTRICITY

DETERMINE AN ALTERNATE WAY TO KEEP REFRIGERATED MEDICATIONS COLD

STOCK UP ON NON-PERISHABLE FOOD AND WATER

MAKE SURE YOU HAVE CASH ON HAND

TIPS AFTER THE STORM

KEEP FREEZERS AND REFRIGERATORS CLOSED
A refrigerator can keep food cold for about 4 hours and a full freezer will keep the temperature for about 48 hours. Use coolers with ice if necessary.

ONLY USE GENERATORS OUTDOORS

DO NOT USE A GAS STOVE TO HEAT YOUR HOME

DISCONNECT ELECTRONICS TO PROTECT FROM SURGES

STAY AWAY FROM FALLEN POWER LINES
HAVE MULTIPLE WAYS TO RECEIVE WEATHER ALERTS!
WINDS from hurricanes can exceed 150 mph depending on the strength of the storm and can cause major damage to buildings and uproot trees.

STORM SURGE is water pushed ashore by the winds of a tropical cyclone. During Hurricane Katrina, the recorded storm surge in Mississippi was over 27 feet.

INLAND FLOODING is a result of heavy, persistent rain from a hurricane. It can occur far from the coast and long after landfall.

TORNADOES are commonly spawned by landfalling hurricanes. These tornadoes develop very quickly and can result in damage far away from the center.

RIP CURRENTS are strong channels of water flowing away from the shore and can develop even when a tropical system is hundreds of miles offshore.

### Actions:
- Prepare your home
- Review your evacuation plan
- Organize your disaster preparedness kit
- Stay up to date with the weather forecast

FOLLOW INSTRUCTIONS FROM LOCAL OFFICIALS!

- Finish storm preparations
- Evacuate if directed by local officials
- Make sure your disaster preparedness kit is ready to go

---

**A tropical cyclone with sustained winds ranging from 39-73 mph:**
- **TROPICAL STORM WATCH**
  - TROPICAL STORM CONDITIONS ARE POSSIBLE

**A tropical cyclone with sustained winds greater than 74 mph:**
- **HURRICANE WATCH**
  - HURRICANE CONDITIONS ARE POSSIBLE

**Issued 48 Hours Ahead of Anticipated Onset**

**Issued 36 Hours Ahead of Predicted Onset**
BEFORE

- KNOW WHERE YOU WILL GO WHETHER IT IS A FAMILY MEMBER’S HOUSE, A SHELTER OR A HOTEL
- REVIEW YOUR PRIMARY EVACUATION ROUTE AND HAVE A SECONDARY ROUTE PLANNED JUST IN CASE (an evacuation map can be found on page 36)
- MAKE ARRANGEMENTS FOR YOUR PETS *Pets are NOT allowed in most shelters
- SEEK INFORMATION FROM LOCAL OFFICIALS REGARDING ROAD CLOSURES AND ADDITIONAL EMERGENCY INFORMATION
- FILL UP YOUR GAS TANK AND HAVE CASH ON HAND

ON THE ROAD

- STAY ON OFFICIAL EVACUATION ROUTES A GPS may misdirect you to roads that are closed
- TUNE TO LOCAL RADIO STATIONS FOR EMERGENCY INFORMATION UPDATES
  FM Radio Stations:
  - Biloxi - 90.3
  - Bude - 88.9
  - Meridian - 88.1
  - Jackson - 91.3
  - Greenwood - 90.9
- TAKE YOUR TIME AND BE PATIENT!

ODETTE  PETER  ROSE  SAM  TERESA  VICTOR  WANDA

2022 TROPICAL CYCLONE NAMES

ALEX  BONNIE  COLIN  DANIELLE  EARL  FIONA  GASTON

HERMINE  IAN  JULIA  KARL  LISA  MARTIN  NICOLE

OWEN  PAULA  RICHARD  SHARY  TOBIAS  VIRGINIE  WALTER
SEVERE STORMS
FLASH FLOODING is caused by heavy or excessive rainfall in a short period of time. Six inches of fast-moving water can knock a person off his or her feet.

A TORNADO is a violent rotating column of air that can have wind speeds over 200 mph. Tornadoes can destroy buildings, flip cars, and create deadly flying debris.

LIGHTNING is a giant spark of electricity that occurs in all thunderstorms. On average, the United States experiences about 25 million lightning strikes a year.

HAIL is a type of precipitation consisting of solid ice that forms inside severe thunderstorms. Hailstones can be as small as a pea or as large as a grapefruit.

DAMAGING WINDS that are not associated with rotation are called 'straight-line' winds and can exceed 100 mph. Straight-line winds can be just as destructive as tornadoes.
## Severe Thunderstorm Risk Categories — Staying Ahead of the Storms

<table>
<thead>
<tr>
<th>Severe Risk Categories</th>
<th>Definition of Risk</th>
<th>Possible Hazards</th>
</tr>
</thead>
</table>
| **Level 1** 'Marginal' Risk | Isolated severe thunderstorms are possible | - Winds 40-60 mph  
- Hail up to 1"  
- Low tornado risk  
*Limited in duration* |
| **Level 2** 'Slight' Risk | Scattered severe thunderstorms are possible | - One or two tornadoes  
- Reports of strong winds  
- Hail ~ 1", isolated 2"  
*Short-lived storms* |
| **Level 3** 'Enhanced' Risk | Numerous severe thunderstorms are possible | - A few tornadoes  
- Several reports of wind damage  
- Damaging hail 1-2" |
| **Level 4** 'Moderate' Risk | Widespread severe thunderstorms are likely | - Strong tornadoes  
- Widespread wind damage  
- Destructive hail 2"+ |
| **Level 5** 'High' Risk | Widespread severe thunderstorms are expected | - Tornado outbreak  
- Extreme wind damage  
- Destructive hail 2"+  
*Long-lived & very intense* |

Days ahead of a severe weather event, meteorologists will share convective outlook graphics. This graphic displays up to five different colors representing risk levels of an upcoming severe weather event.

### Actions:
- **TORNADO WARNING**
  - Take action immediately!
  - Seek shelter in an interior room of a sturdy structure away from windows
- **SEVERE THUNDERSTORM WATCH**
  - Remain alert
  - Review your severe weather plan
  - Monitor weather conditions

### Have Multiple Ways to Receive Warnings!
WHERE TO GO DURING A TORNADO WARNING

- SEEK SHELTER INSIDE IMMEDIATELY IN A BASEMENT OR STORM SHELTER
- IF YOU DON’T HAVE A BASEMENT OR STORM SHELTER, MOVE TO AN INTERIOR ROOM OF A STURDY STRUCTURE ON THE LOWEST LEVEL WITH NO WINDOWS TO THE OUTSIDE
- EXTERIOR ROOMS WITH WINDOWS OR DOORS TO THE OUTSIDE ARE NOT SAFE
- ROOMS ON THE TOP OR SECOND FLOOR ARE NOT SAFE

DO NOT LEAVE YOUR SAFE PLACE UNTIL THE TORNADO WARNING HAS EXPIRED FOR YOUR AREA!

HAVE MULTIPLE WAYS TO RECEIVE WARNINGS

- NOAA WEATHER RADIO
- LOCAL TV & RADIO
- OUTDOOR SIRENS
- WIRELESS EMERGENCY ALERTS
- WEATHER APPS
- SOCIAL MEDIA
AFTER THE STORM
WHAT TO DO AFTER THE STORM

KEY SAFETY TIPS AFTER THE STORM

- Stay off the roads unless travel is absolutely necessary.
- If you come across fallen power lines, stay back at least 500 feet and do not touch the lines.
- When using a generator, keep it outside. Never run a generator in the house or garage.
- Stay out of damaged buildings and wait to re-enter until it's deemed safe.

WHO TO CALL:

- For life-threatening situations, call 911.
- Call your local emergency management agency for resources or help with shelter needs. Phone numbers can be found on page 29.
- Those with disabilities can call 'Life of MS' at 601-969-4009 or 1-800-748-9398 (V/TDD) for help.
WHAT TO DO IF YOUR HOME IS DAMAGED

- TAKE PICTURES OF THE DAMAGE TO YOUR HOUSE AND ITS CONTENTS FOR INSURANCE PURPOSES
- CALL YOUR INSURANCE AGENT TO BEGIN THE PROCESS OF FILING A CLAIM
- REPORT THE DAMAGE TO LOCAL OFFICIALS:
  1. BY PHONE - Call your County Emergency Management Agency
     Phone numbers can be found on page 29
  2. ONLINE - Use MEMA's 'Self Report' tool
     Visit: msema.org/contact/crisistrack/ and select your county
ALL businesses that would like to help with disaster response efforts are encouraged to register at msbeoc.msema.org

IF YOU ARE IN NEED OF RESOURCES, CALL YOUR COUNTY EMERGENCY MANAGEMENT AGENCY

A FULL CONTACT LIST CAN BE FOUND ON PAGE 29

MISSISSIPPI BUSINESS EMERGENCY OPERATIONS CENTER

The MSBEOC is an online platform for information sharing within the business community and MEMA to assist those in need of resources following a disaster.

ALL businesses that would like to help with disaster response efforts are encouraged to register at msbeoc.msema.org
BEWARE OF SCAMS FOLLOWING DISASTERS

COMMON POST-DISASTER FRAUD PRACTICES AND SCAMS INCLUDE:

1. **FAKE OFFERS OF STATE AID**
   MEMA does not send direct payments to homeowners following a disaster. Legitimate, available resources will be available on our website: [www.msema.org](http://www.msema.org)

2. **PHONY HOUSING INSPECTORS**
   Fake housing inspectors may claim to represent state or local government agencies. Ask to see the inspector’s identification badge.

3. **ILLEGITIMATE GOVERNMENT WORKERS**
   You may be contacted by scam artists posing as disaster workers who are seeking money for services. State and local disaster workers DO NOT accept money.

4. **FRAUDULENT CHARITABLE SOLICITATIONS**
   Criminals often send fraudulent communications through email or social media designed to solicit contributions. A list of reputable charities that are approved by the Better Business Bureau’s Wise Giving Alliance is available at [www.give.org](http://www.give.org)

5. **FAKE TEXTS AND SOCIAL MEDIA POSTS**
   If any type of assistance becomes available following a disaster, MEMA will share the information on our website and official social media pages.

*IF YOU BELIEVE YOU ARE A VICTIM OF A SCAM OR IDENTITY THEFT, REPORT IT TO YOUR LOCAL POLICE OR CONTACT THE OFFICE OF THE MISSISSIPPI ATTORNEY GENERAL AT 601-359-4230*
Depending on the severity of a disaster and the extent of the damage, federal assistance could become available to homeowners, renters, business owners, local governments and/or certain private nonprofits. However, federal assistance is not guaranteed!

A step by step explanation of how the state requests federal assistance following a disaster:

1. Storm forms
2. State of emergency is declared
3. Disaster hits
4. County begins damage assessments
5. MEMA validates damage assessments
6. MEMA requests FEMA to conduct joint damage assessments
7. FEMA conducts damage assessments
8. MEMA drafts request for federal assistance
9. Governor signs request and sends to FEMA and the President
10. President approves
11. If approved, application process for assistance opens
TYPES OF POSSIBLE FEDERAL ASSISTANCE FOLLOWING A DISASTER

1. FEMA INDIVIDUAL ASSISTANCE

WHO'S ELIGIBLE:
Individuals and families who sustained loss after a disaster for declared counties

HOW TO BECOME ELIGIBLE:
A Major Disaster Declaration for Individual Assistance must be declared by the President for your county following the disaster.

ASSISTANCE MAY INCLUDE:
- Grants to help pay for temporary housing
- Emergency home repairs
- Uninsured or underinsured personal property losses
- Medical expenses cause by the disaster
- Other serious disaster-related expenses

2. FEMA PUBLIC ASSISTANCE

WHO'S ELIGIBLE:
Local and state governments as well as certain nonprofits for declared counties

HOW TO BECOME ELIGIBLE:
A Major Disaster Declaration for Public Assistance must be declared by the President for your county following the disaster.

ASSISTANCE MAY INCLUDE:
- Emergency protective measures
- Debris removal
- Infrastructure repairs or replacement needed due to disaster-related damage
### SBA Home Disaster Loans

**Who's Eligible:**
Homeowners/renters who sustained damage & live in an SBA disaster-declared county.

**How To Become Eligible:**
The Small Business Administration must approve a disaster declaration for your county following the disaster.

**How Can The Loan Be Used?**
Can be used to repair or replace disaster-damaged real estate and/or personal property.

**Loan Amount Limits:**
Up to $200,000 for repair/replacement of real estate and up to $40,000 for personal property.

### SBA Physical Disaster Loans

**Who's Eligible:**
Businesses and private nonprofits that sustained damage in an SBA disaster declared county.

**How To Become Eligible:**
The Small Business Administration must approve a disaster declaration for your county following the disaster.

**How Can The Loan Be Used?**
Can be used to repair or replace disaster-damaged property owned by the business including real estate and inventories.

**Loan Amount Limits:**
Up to $2 million for businesses and private nonprofits.
