

# Hurricane Ida: Purchasing Under Exigent or Emergency Circumstances Training

---

When a disaster strikes, communities must often act quickly to protect life, public health or safety, and property. In such instances, going through a competitive procurement may be impractical and even worsen the potential threat. Recognizing that communities impacted by Hurricane Ida may face exigent or emergency (EE) circumstances when carrying out a FEMA award, FEMA's Grant Programs Directorate (GPD) is offering a series of trainings on the federal rules that allow for expedited procurement actions during circumstances that require immediate aid or action.

These **one-hour** virtual trainings will be facilitated by GPD's Procurement Disaster Assistance Team (PDAT) and will cover the federal rules that allow for noncompetitive ("sole source") procurements along with important compliance considerations when exercising these flexibilities.

## Target Audience

This training is appropriate for FEMA award recipients and subrecipients impacted by Hurricane Ida, including state, local, and tribal government personnel; nonprofit organization staff; and other non-Federal entities. This training is also appropriate for FEMA staff.

## Topics Include

- Exigent and Emergency Circumstances
- Considerations for State and Non-State Entities
- Time and Material Contract Types
- Prohibition on Cost Plus Percentage of Cost Contracts
- Cost or Price Analysis
- Contract Provisions
- Additional Requirements Under EE Circumstances
- Tools and Resources

## Delivery Format

Online training through Adobe Connect. If you have never used this platform, please [test your connection in advance here](#). Training dates and access information are provided below in the Training Schedule.

To register for any of the trainings listed below, please select "register here" for the day of training you would like to attend. There is no limit to the number of participants in each training.
